## **FOREWARD**

Budgets are drawn up on annual basis to execute the '**Blueprint to Progress**' document of this administration which defines the State's strategic development trajectory for the time span of 2017-2021.

The 2020 Budget named 'Budget of Growth' was designed to consolidate on the modest achievements of the Arakunrin Oluwarotimi Odunayo Akeredolu (SAN) led administration's previous Budgets by focusing on continuous provision and maintenance of key infrastructures in various sectors of the economy to further stimulate growth, support the private sector to create more jobs and improve the overall well-being of Ondo State residents.

The 2020 Third Quarter Budget Implementation Appraisal report was prepared in compliance with the Ondo State Fiscal Responsibility Law (FRL,2017) to further promote transparency and accountability in governance.

The budget implementation appraisal report had been uploaded on the State Budget website: [www.ondobudget.org](http://www.ondobudget.org) in compliance with the FRL, 2017 and it is available for free download by the general public.

I therefore urge the general public and readers of this report to maintain active interest in tracking progress towards attainment of government's goals and objectives. We count on your partnership to enthrone good governance in Ondo State and look forward to your active participation in the entire budget process.

## PREFACE

Budget is a key policy instrument for allocating public resources among competing socio-economic needs by Government. Budget performance report therefore, is an essential part of the State accountability mechanism stipulated in the Ondo State Fiscal Responsibility Law, 2017.

The 2020 Revised Budget is christened '**Budget of Growth**' as we had it in the original Budget. Just like the original 2020 Budget, the revised 2020 Budget was closely linked to the Strategic Development and Policy Implementation Plan document tagged the '**Blueprint to Progress**' of this administration and the budget was largely the products of inputs garnered during the town hall meetings with various Stakeholders across the State.

The 2020 Third Quarter Budget Implementation Appraisal Report is part of the efforts of the Ministry of Economic Planning and Budget to comply with the FRL, 2017 and more importantly to promote budget transparency, accountability and credibility as a key component of the State's commitment to Open Government Partnership (OGP) initiatives. This report therefore, provides information on the distribution and utilization of public resources by Ministries, Extra-Ministerial Department and Agencies (MEDAs) during the third quarter of the 2020 fiscal year. Also, it identifies gaps, provides lessons, highlights significant accomplishments, and offers recommendations for improvement.

I appreciate the effort of the Monitoring and Evaluation Department of the Ministry of Economic Planning and Budget for producing this report within the Fiscal Responsibility Law (FRL, 2017) stipulated timeline and wish them every success as they continue to carry out this important function.

## **CHAPTER ONE**

### **1.1 INTRODUCTION**

The 2020 Revised Budget was closely linked with the Cardinal Programmes and Strategic Development/Policy Implementation Plan document of the Arakunrin Oluwarotimi Odunayo Akeredolu (*SAM*) led administration tagged the *Blueprint to Progress* and was designed to effectively curtail the spread of COVID-19 pandemic and protect the lives and livelihood of the people. Exchange Rate (N to US\$)	-	360

## **1.5 METHODOLOGY**

The Methodology adopted in the production of 2020 third quarter Budget Implementation Appraisal Report draws from a number of inter-related approaches. A combination of template design, data collection, desk review and analysis were adopted in order to justify budgetary resource allocation and expenditure. Data were collected through the administration of uniform templates in line with M&E Framework. These primary level data were collected from the MEDAs and validated from the Office of Accountant General and the State Internal Revenue Service for analysis.

## **1.6 LIMITATIONS**

The limitations encountered during the preparation of the report are:

- i. Submission of Returns –Some MEDAs didn't meet the timeline to which they were expected to submit their returns. This gave unnecessary burden to the Department to meet up with the timeline for the production of the report.
- ii. Validation of Data –To ensure data integrity, the Department repeatedly validated returns from State Internal Revenue Service (SIRS), Office of the Accountant General (OAG), and other MEDAs.
- iii. Untimely Release of Fund – Untimely release of fund is still a critical challenge to the timely production of the report.

## **4.2 RECOMMENDATIONS**

For better budget performance, the under listed are hereby recommended;

- i. The State should seek debt relief so that the fund deducted from the money that accrued to the State from the Federation account will be suspended or reduced pending the improvement in economic activities after COVID-19 induced recession.
- ii. More efforts should be geared towards attracting Development Partners and Donors to the State so as to complement the financing of the various developmental projects in the State.
- iii. The State should continue to prioritise implementation of developmental programmes/projects that will stimulate economic activities.
- iv. The revenue generating agencies should be encouraged to sustain and improve on the current Internally Generated Revenue performance.
- v. Monitoring and Evaluation Department of Ministry of Economic Planning and Budget should be given necessary support to carry out independent monitoring and impact assessment of capital projects executed in line with the Ondo State Fiscal Responsibility Law (FRL, 2017) and advise government appropriately.

### **4.3 CONCLUSION**

The budget performance in the third quarter recorded a better performance than the previous quarters. Both revenue and expenditure performed above eighty percent in the period under review. The performance fall within the SFTAS twenty percent budget variance required for State to qualify to access the Grant assigned to Disbursement Link Indicator (DLI) on Budget performance. Therefore, more measures should be taken to sustain and further improve on budget performance in the State to enable the State continue to qualify to access the SFTAS Grant.
